The instant application is deemed to be directed to a nonobvious improvement over the invention patented in Pat. No. Hesselbom (US 6,014,313). The improvement comprises as follows:

Claim 1 is allowed because the prior art of record, taken alone or in combination, fails to disclose or render obvious wherein the heat removal means includes a pipe having a

Claims 2-3, 5-7, 8 and 13 depend on claim 1 and therefore they are also allowed.

Claims 9 and 22 are allowed because the prior art of record, taken alone or in combination, fails to disclose or render obvious wherein the heat removal system comprise a first segment and a second segment, the first segment connecting an integrated circuit of the first module to a first face of the first module, the first face being distinct from a second face making contact between the first module and the soleplate, and the second segment connecting said second face to the soleplate in combination with the rest of the limitations of the base claim. Claims 4, 10-12, 14-21 depend on claim 9 and therefore they are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
